I could not rest well at nights and in the mornings I arose tired and hardly able to get about. The pain was worse just over the right kidney and any extra exertion or lifting caused me to suffer severely. I told the people of Vincennes through the newspapers how I had procured a box of Doan's Kidney Pills at Miller's drug store and what they had done for me. Now, after years I do not retract one word of my statement, but can re-endorse them with pleasure, knowing them to be all they are represented."

Insurance Underwriters Believe in the Jewel

Where There's a Jewel the Lowest Insurance Rate Prevails—The Reason is Here Given.

House furnishers and hardware dealers who handle Gasoline Stoves, have been subjected to considerable annoyances during the past year by the inspectors of fire insurance companies, who have attempted to compel retailers to discontinue the sale of certain makes of Gasoline Stoves under threats of the cancellation of the risks taken by the underwriters upon the stocks contained in stores; also on household goods and residences, where such stoves have been placed.

Jewel Gasoline Stoves are constructed according to the safety requirements of the National Board of Underwriters, and are on their list, of permitted stoves.

If in need of a Gasoline Stove, be sure and get a "JEWEL." You will not only have the best Gasoline Stove, but you will also be entitled to the lowest insurance rate.

We sell the "JEWEL" because it will not blow up and set fire to your house. That's why insurance companies recommend it.
