

THE MEN WHO MAKE OUR WEALTH AND GREATNESS HAVE THEIR DAY

Graphic Depiction of Labor Day, Organization and Benefits, by J. C. Mayes, Chairman of the Labor Day Committee.

TRUE worth is in being, not seeming—
In doing each day that goes by
Some little good—not in the dreaming
Of great things to do by and by

One day in the year have the legislators set aside for the good of the country—Labor Day. Throughout this country men and women whose religion is unionism and whose belief is founded upon justice and righteousness will gather Monday, September 4, 1905, to demonstrate its lofty ideals.

Of all the legal holidays which we celebrate there is none which is so much concerned with the present and the future as Labor Day. The birthdays of some heroes we celebrate because the wonderful work they did for this country could not have been performed by men unless they possessed the rarest qualities. Decoration day we devote especially to the reverence of the memory of those who have fought and bled for the Union and liberty. Decoration day we celebrate because it was on the fourth of July that we became a free and independent nation, and because it was on that day that our inalienable rights were set forth.

Labor Day is created for the workingman. It is a day when every person should be awakened to serious consideration of his environment. It is a day when every man should think of the rights and privileges which are guaranteed him by the constitution. It is a day when thoughtful contemplation of one's mind upon the subject of his rights as a creator of wealth will accomplish more than a day of idleness now and then throughout the whole year. It has been the privilege of man to march in full glory to the places of inspiring music. The sounds of trumpets, the beating of drums, the blowing of horns, the endless procession of numberless thousands during this one day of an entire year accomplishes nothing. We may attract attention by our steady marching. We may command passing re-

spect, because of our numerical strength. We may cause uneasiness because of our glorification in a no war cause. But what does it all mean? Can we truly glorify in Labor Day without attempting to make our lives brighter and the world's misery lighter. Shall we proudly boast of our independence when the cries of underpaid women and wretched factory slaves, crying to be relieved from so much earthly misery, reach our ears?

The "particular parade" Monday is, therefore, for no other purpose than that of demonstrating the steadfast adherence of union men to union principles and creating lasting respect. The presence of Labor Day, however, should not be a signal merely for mirth and gaiety. It should lend inspiration to a just cause; it should show that the aspiration of workingmen is toward the higher and the better, it should sound the signal of alarm that unless organized labor makes some rapid strides in the year to come, all our efforts will have been in vain. The principle of organized labor must be advanced for it enables mankind; it sets the pace for a higher civilization. It is the main factor which results in the amelioration and the betterment of all upon this planet.

A confidence in our strength will lead us to victory. And though the roar of Capital strike at us, though we once a skirmish, in a great battle we will ever be victorious. The spirit of Labor Day should be passing upon us, who have mutually pledged to each other our lives and our sacred honor."

been set aside for dinner and lunch. Precisely at 1:30 Mayor George E. Greene will deliver an address of welcome, after which the speaker of the day, Charles W. Kleckner, of Logansport, will take up the cause of labor from an industrial standpoint.

After the speaking there will be all kinds of events and prizes for prizes by the many union men on the grounds.

There will be refreshment stands on the grounds, and there will be no fear of going hungry. Moving pictures will be included in the fully pronounced program of the twentieth century.

There will also be dancing on the grounds and other amusements.

Don't fail to see the novelty balloon disclose the answers in the sky.

The finishing touches are now being made and everything points to a monster parade. If Jupiter Pluvius does not put in his appearance has been given by the committee that a surprise will be in store for the "wise ones" and the "knockers".

The parade will move at 10 a. m. prompt, just as the rolling mill whistle blows. Every labor union will be expected to be at the place of formation on North Second street at 9:30 a. m. and be ready to fill in when command is given by Grand Marshal C. E. Lutz.

The two aids will see that every union is in position according to the official program and there will be no deviation from the line as arranged by the committee.
