

TO OBSERVE LABOR DAY

Governor Hanly Has Issued His Labor Day Proclamation.

Governor J. Frank Hanly has issued the following proclamation calling upon the people of the great state of Indiana to observe Monday, September 3rd, as Labor Day:

"It is meet and fitting that a people who believe in the dignity and sovereignty of labor, in its wholesomeness, and in the glory of its opportunity, should pause in the rush of affairs, once each year, to give formal expression to such belief, and to make public acknowledgement of the great part the toilers of the land have born in the reclamation of a continent and in the upbuilding of the nation.

"Therefore, I, J. Frank Hanly by virtue of the authority vested in me as governor of the state of Indiana, do hereby designate and set apart Monday, September 3, 1906, as Labor Day, and do also further appoint and proclaim the same as a holiday within the state of Indiana, and do recommend that it be observed and celebrated as such by all citizens of the state wherever they may be and whatever their form of toil or occupation.

"Let the flag—emblem of liberty, equality and opportunity—be everywhere displayed. Let all public and private business be suspended, so far as necessity may permit, that all may join in the celebration of labor's achievements and of the honorable estate it has attained in this free land."

The Weakness of Old Age

As the years go by the blood gets thin, watery and impure, and fails to supply the nourishment required to keep vitality at high-water mark. Circulation gets bad, and the nervous system suffers. Besides the pains and aches, besides the weakness and dizziness, there are feelings of numbness which tell of the approach of paralysis and locomotor ataxia.

Judging from the experience of the thousands of old people who have tested Dr. A. W. Chase's Nerve Pills, they seem to be exactly suited to overcome these conditions, consequent on old age.

Unlike ordinary medicines, Dr. A. W. Chase's Nerve Pills are entirely restorative in action, and cure by forming new, firm flesh and tissue, and building up the system. 50 cents a box, at all dealers, or Dr. A. W. Chase Medicine Co., Buffalo, N. Y. The portrait and signature of Dr. A. W. Chase, the famous receipt book author, are on every box.

HIVE IN AN AQUARIUM.

Good Way of Seeing How the Little Busy Bee Works.

Everybody is curious to see bees actually at work. Take a rectangular glass aquarium and place it on a window sill, elevated slightly at the side nearest the window, so that when the latter is raised an inch the bees may pass in and out. If desired, the bees may be kept for some time in confinement by raising the aquarium an inch on blocks and using a strip of wire screen cloth to prevent the bees from escaping.

When confined the bees should be fed a sirup of equal parts of sugar and water. A frame or two of bees may be purchased for a trifling sum.

Put within this glass aquarium some rustic supports to represent projecting, undecayed portions of the inside of the hollow trunk. Keep all covered by an opaque cloth when not observing what is going on within this glass bee home.

Then the bees will be free to work and to adapt themselves to the environment. They can suit their own fancy about attaching combs to the sticks; they may build diagonally or in any other form that they may prefer, and they may attach the comb to sides or ends just when and where they think it is necessary.

In the artificial hives the combs are attached only at the edges, but in natural conditions within the bee tree or in its counterpart, as represented by the old fashioned box hive with opaque sides and in our transparent inverted aquarium, the bees can build combs and attach them in any way that they see fit.

One of the most interesting objects for study is to note when the bees think it necessary to put out a side support from a long comb. They seem to believe that they are really within a hollow tree and that it is likely to be swayed by the gales. Of course when so swayed long combs laden with honey or with young bees would be too much for the unyielding rigidity of the upper part of the combs. These, if they have no side stays, would bend, crack and be crashed against each other.

The bees have learned this and give the combs a fine support whenever it is necessary. They do this, it is true to a certain extent, in the regular eight or ten frame hive, but not with the naturalness with which they do it in a large, unobstructed space.

Not long ago a veteran beekeeper took a colony of bees from an attic, where they had been for many years. "Well," said he, "you should have seen the funny forms of those combs—most interesting thing I ever saw. There was one pillar almost round—a solid center right and several feet long—and these combs around that, the most fantastic shape you ever saw."—Suburban Life.

Extorting Charity.

A philanthropist said of a banker: "Brown is a mean man." Once I made him shell out, though. Listen. "Two ladies, representatives of a children's fresh air fund—a noble charity—called on Brown and asked him to contribute. He gave a dollar. With all his millions, he gave \$1 exactly.

"It's all I can afford," he whined. "My office is in the same building as Brown's bank, and a few minutes later the two ladies came to me. When I saw Brown's name down for only a dollar I was mad.

"He says it's all he can afford, eh?" I began. "Well, ladies, just wait here a minute."

"And I called my head clerk, ascertained my balance in Brown's bank, and wrote a check then and there in the clerk's name for \$273,640—the entire amount.

"Draw this at once," I said. "The clerk departed, and a minute or two later Brown himself rushed in breathlessly, the check in his hand.

"Harry," he said, "what is the meaning of this?"

"I pointed to the ladies' subscription list.

"I have just learned," I said, "that you could only afford to give a dollar to the children's fresh air fund. This made me think that things were looking pretty fishy at the bank. I decided I had better draw out."

"Brown had to add two dimes to his subscription before I would consent to tear up the check."

Disraeli's Keen Business Instinct.
When the Hon. Mr. Ward wrote his novel "Tremaine," he was fearful of acknowledging himself the author, until its fate should have been ascertained. He accordingly, the better to preserve his incognito, sent the manuscript copy by the wife of his attorney to Mr. Colburn. The work, although accepted, was not considered likely to pay extremely well, and consequently a trifling sum was given for it. Contrary, however, to Mr. Colburn's expectations, it ran to three editions.

The ingenious author of "Vivian Grey," then twenty-two years old, having heard of the circumstances, determined to use it to advantage, and accordingly having arranged his work for publication, he proceeded to find out the honorable gentleman's fair messenger. This he quickly effected, and upon a promise of giving her \$20 induced her to be the bearer of his novel to the same publisher.

The woman was instantly recognized by Mr. Colburn as the same person who brought him "Tremaine;" and recollecting the great sale of that novel, he leaped at the manuscript presented to him with the utmost eagerness. It was quickly read, and a handsome sum given for the copyright. A short time, however, enabled Mr. Colburn to find out his error, but too late to remedy himself. The work was not successful, and a considerable sum was lost by its publication.

The Doctor Knows Where to Look

for the sign that tells the cause of a disturbed stomach, of headache, bad breath, feverishness, and loss of appetite.

He looks at your tongue.

If it is coated he will probably give you a pill or a cathartic medicine of some kind, because the bowels must be FORCED to carry off the poison that is making you sick.

Very often you might.

SAVE DOCTOR'S FEES.

if you would look at your tongue yourself. Whenever you feel "out of sorts," with a dull and heavy feeling in the head, backache, bad taste in the mouth, and stomach squeamish, look in the glass at your tongue.

If it is coated your trouble is caused, very likely, by irregularity of the bowels, and nothing will so quickly—and so pleasantly relieve you as a good dose of CELERY KING.

CELERY KING is a Tonic Laxative

and differs from every other laxative in that it stimulates peristalsis—that is, it stimulates the muscles of the bowels to do their proper work. Laxatives that act as purgatives weaken those muscles, and, for that reason, should never be used except in emergency cases. CELERY KING is not a cathartic.

Cathartics (pill, salts, castor oil, etc.) are not tonic laxatives, and they leave the system in an exhausted and depressed condition. Many cathartics cause piles and other unfavorable complications. Cathartics cannot cure constipation.

Let it never be forgotten that alcohol is not only useless in treating constipation, kidney diseases, blood disorders and many other ailments, but is absolutely harmful.

CELERY KING Does Not Contain Alcohol

CELERY KING is sold by druggists in both tablet or herb form for 25 and 50 cents.

If you cannot get it in the form you desire from your druggist, send 25c in stamps to the proprietors and a package will be mailed to you.

POINTED PARAGRAPHS.

Don't save your money and starve your mind.

Vigorous thought must come from a fresh brain.

Tens of thousands of people fail because they love their ease too much.

"Keeping alive that spirit of youth," Stevenson used to say, was "the perennial spring of all the mental faculties."

A man may build a palace, but he can never make of it a home. The spirituality and love of a woman alone can accomplish this.

If we are contented to unfold the life within according to the pattern given us we shall reach the highest end of which we are capable.

By proper training the depressing emotions can be practically eliminated from life and the good emotions rendered permanently dominant.

Every time you crowd into the memory what you do not expect it to retain you weaken its powers and you lose your authority to command its services.—Success.

John Wesley and Beau Nash.

In a book about Bath is set forth a story about John Wesley. Beau Nash had told Wesley that his preaching in the street was not only contrary to law, but it "frightened people out of their wits."

"Sir," said Wesley, "did you ever hear me preach?"

"No," said the master of ceremonies.

"How then can you judge of what you never heard?"

"By common report," said Nash stoutly.

"Common report is not enough. Give me leave, sir, to ask, is not your name Nash?"

"My name is Nash."

"Sir," said Wesley, "I dare not judge of you by common report."

Magnolia Blossom

Owes Her Life to Magnolia Blossom

Mrs. W. A. Hatfield of Burkett, Indiana, says:

I suffered for years with Falling of the Womb and Uteration after doctoring with some of the best Doctors and trying everything else with no benefit, until two years ago I began using your MAGNOLIA BLOSSOM, and I can now truly say that I owe my life to it. Every suffering woman would not only receive permanent relief, but would save hundreds of dollars in fruitless Doctors' Bills if they would use MAGNOLIA BLOSSOM. It is a pleasant treatment, and can be used by the Patient at home. Ladies, take my advice and treat yourselves and believe me a true friend to suffering women.

Yours truly Mrs. W. A. Hatfield, Burkett, Ind.

Why Do Women Suffer?

And from day to day endure all those racking and distressing complaints so common to the sex? Because they dread medical treatment and examinations, and prefer to suffer on in silence rather than submit to them. To this class a simple home treatment like MAGNOLIA BLOSSOM is welcomed as a blessing. Hundreds of women and girls whose life had been one continuous burden have been restored to health and strength by the use of this famous specific. One dollar for one month's treatment places it within the reach of all. Write the South Bend Remedy Co., South Bend, Ind. Our book entitled a "Book for Women" sent free to any address.
