

PRINCIPAL SPEAKER

On New Labor Day Will be Theodore Perry, a Leader in the Typographical Union.

Theodore Perry, who will make the principal speech for the union people on New Labor Day, has long been an active participant in the organized labor movement. He has

Theodore Perry.

been a member of the Typographical Union for more than twenty years, and during that time he has taken an active part in the construction of that organization. He was for five years first vice president of the International Union, during the period that William B. Prescott was president. This was during the most delicate time that ever confronted either the International Typographical Union or any other organized body of wage workers in this country. It was during the introduction of the typesetting machine, which all but displaced hand labor in the composing rooms of the newspapers of the country. As each machine did the work of about four hand compositors, and as its introduction came suddenly, and during the time of a financial depression, the problem that confronted the men intrusted with ordering the affairs of the International Union was greater than ever before or since been up for consideration. The fact that the union met the condition and solved it, that the machine was introduced without causing the slightest strain on the friendly relations that had existed between the employers and the union, that working hours were reduced but very few men were displaced by the machine speaks better for the wisdom of the men in charge of affairs than could anything else. During this period Mr. Perry was a vital factor in the organization. He retired from the vice presidency of the International Typographical Union in 1898. Since then he has lived in Nashville, Tenn., and in Indianapolis, moving to the latter city seven years ago. In Nashville he took an active part in the organized labor movement, serving in various official capacities. In Indianapolis he has served several terms as president of the Central Labor Union and has taken a foremost part in ordering the union affairs in that city. Mr. Perry is known as a conservative exponent of trades unionism, and a believer in the "step-by-step method."

Mr. Perry, together with Edgar A. Perkins, will arrive Sunday preceding New Labor Day, and while in the city will be the guest of the local printers' union. They will attend the meeting of the union here in the afternoon, and both will make a talk to the members.

Mr. Perkins is a well known factor in state labor circles, being president of the State Federation of Labor and largely instrumental in framing state labor laws. He was formerly president of the printers union in Indianapolis, and was the main-spring of that organization.

The two are leaders in the state's destinies in the labor armament, and while the people on New Labor Day will not hear Mr. Perkins, they can rest assured that Mr. Perry will give them a talk well worth listening to, and he is programmed to speak at about 3:45 p. m.

Often The Kidneys Are Weakened by Over-Work.

Unhealthy Kidneys Make Impure Blood. It used to be considered that only urinary and bladder troubles were to be traced to the kidneys, but now modern science proves that nearly all diseases have their beginning in the disorder of these most important organs.

The kidneys filter and purify the blood—that is their work.

Therefore, when your kidneys are weak or out of order, you can understand how quickly your entire body is affected and how every organ seems to fail to do its duty.

If you are sick or "feel badly," begin taking the great kidney remedy, Dr. Kilmer's Swamp-Root, because as soon as your kidneys are well they will help all the other organs to health. A trial will convince anyone.

If you are sick you can make no mistake by first doctoring your kidneys. The mild and extraordinary effect of Dr. Kilmer's Swamp-Root, the great kidney remedy, is soon realized. It stands the highest for its wonderful cures of the most distressing cases, and is sold on its merits by all druggists in fifty-cent and one-dollar size bottles. You may have a sample bottle free, also a pamphlet telling you how to find out if you have kidney or bladder trouble. Mention this paper when writing to Dr. Kilmer & Co., Binghamton, N. Y. Don't make any mistake, but remember the name, Swamp-Root, Dr. Kilmer's Swamp-Root, and the address, Binghamton, N. Y., on every bottle.

Lid On Town Pump.
The Washington Herald wittily says, the public well near the public square at Loogootee where one was wont to quench his thirst since the lid has been clapped on that place, has been found by an analysis by State Chemist Bernard of Indianapolis to be full of typhoid germs and now the lid is on it also, with Dr. M. M. Dooley, in the capacity of health officer sitting on the same.

HOSPITAL TROLLEY DAY

Every Citizen Should Do What He Can to Make the Day a Grand Success.

September 5th is Trolley Day for the benefit of the new hospital. The ladies of Vincennes are bending every effort to raise money to furnish the building. This is something that should appeal to every loyal citizen of Vincennes, or for that matter, of Knox county. A hospital has long been needed and now that it has been finished it must be furnished and as a pleasant and profitable way to raise the necessary money Trolley Day was decided upon. The entertainment will be given in Lakewood park. One hundred young ladies have been selected to act as conductors and it may be well to state again that there will be no holding up change. Each conductor has been instructed to give back correct change in all instances. Of course if anyone wants to pay, well say a quarter, for the privilege of riding with any of these fair and charming girls, the courtesy will be accepted. At Lakewood various amusements will be given an account of which will appear in the Commercial later. One of the most interesting features will be the baby show a full account of this most interesting contest will also appear later. The ladies in charge of Trolley Day are giving days of hard labor to making this a success. Will you not help them by giving them your patronage? Donations of sugar, candy, lemons, chewing gum or anything saleable at stands, will be very greatly appreciated. F. A. Thuis has made his donation, one hundred cases of pop, who will be the next? If you will give anything, call Mrs. F. M. Tindolph, 113 North Fifth street, who has charge of this department.

Make Trolley Day one long to be remembered. Keep in thought the cause and remember that you can enjoy a delightful day at a beautiful park and that it is your nickles and dimes that will help furnish the hospital.

SALVATION ARMY BENEFIT

To be Given at the Electric Theatre Shortly—Life of Moses May be Shown

Rogers and Frund the managers of the Main street Electric theater, have promised to give a benefit for the Salvation Army in about three weeks from now. As there are a great many other attractions in the city just now, Captain Brown has thought it best not to interfere with them. The hospital ladies expect to have their benefit day on the 5th of September and the fair is soon afterward. It is probable that the Salvation Army benefit will be held immediately after the fair closes. For the occasion the managers of the theatre will try to get the beautiful picture on the life of Moses. A great many of the prominent ladies of the city have promised to help to advertise and to sell tickets for the benefit and it is very probable that it will be the best benefit ever given in the city.

LEFT FOR HIS NEW CHARGE

Professor Flint, who has been teaching in the business department of the university for the past few years and who has resigned his position there, has already left the city for his future charge. He will take charge of a business college at Winona, Mich. Professor Flint has deserved a great deal of credit here and it is hoped that his success at his new location will be even better than it has been here.

Proper Way to Make Caramels—
Banana Salad a Pleasant Change—
Good to Remember When Peeling Oranges.

Caramels.—Burn one cup of brown sugar and add a cup of water, little by little. Put in another cup of brown sugar and some butter and let it boil. When it hairs put in buttered pan and cut. If you want them to be chocolate caramels add some chocolate or cocoa.

To Peel Oranges.—If you will pour scalding water over the oranges and let them stand five minutes you will save time in peeling them. The thick white inner skin, usually so hard to get off, will adhere to the peel and come off with it, leaving the fruit beautifully clean and ready to slice.

Improved Pieplant.—To improve the taste of pieplant stew some finely cut lemon peel with it.

Banana Salad.—This salad is served in banana boats, which are large, firm banana skins, from which only one strip has been removed. The grapes used in this salad are Malaga; cut in halves and remove seeds. The bananas are peeled, sliced, and quartered, the endive, very white, is shredded finely and the whole mass of fruit is covered generously with orange juice and over all pour mayonnaise dressing. Place on small blanched lettuce leaves with sprigs of water cress at each end for decoration.

Devil's Food Cake.—Two cups sugar creamed with half cup butter. Then add two beaten eggs; half cup sour milk; one teaspoonful soda; two teaspoonfuls vanilla; two and two-thirds cups flour; half cup of chocolate in half cup boiling water, stir into paste, let cool, and pour into butter.

Lazy Woman's Pie.—Line a deep pie tin with rich pie crust, core and pare apples as for baking, stand in the crust and season the pie with butter, sugar, and spice the same as an ordinary pie. No upper crust. Bake and serve hot or cold with or without whipped cream.

Vegetable Salad.—One quart of potatoes cut in dice, one good sized cucumber cut the same way, three tablespoonfuls of green peas, two pimentos shredded. Mix with a pint of cooked salad dressing. Serve in individual dishes on lettuce leaves frosted with whipped cream or sprinkled with paprika.

PECULIAR ACCIDENT

Louis Westman Hoisted With a Forkful of Hay and Caught in a Pulley.

Louie, the nine-year old son of James Witsman, of near Plainville, met with a peculiar accident, Tuesday, while assisting in unloading hay.

He was in the hay mow tramping hay when he reached up and caught hold of the hay fork cable. When the horse which was hitched to the end of the cable outside of the barn started to pull up a fork-load of hay from the wagon, the boy was hoisted by the rope to the roof and carried forward to a pulley where his hands were badly skinned and bruised before he fell ten feet to the hay below.

No bones were broken. A physician was called to dress the badly lacerated hands. He is improving nicely.

Proper Way to Make Caramels—
Banana Salad a Pleasant Change—
Good to Remember When Peeling Oranges.

Wicker Furniture.
If wicker furniture has been varnished it will not take enamel until the varnish has been removed. To do this pour boiling water in which a little washing soda has been dissolved over and through the wicker for about ten minutes. After it has dried go over it with a flannel cloth dampened with naphtha. This should be done in the open air, and the piece of furniture should be left out of doors until all traces of the naphtha have disappeared, as it would be dangerous to put near fire.

The Dignity of Youth.
The woman in the adjoining flat said to her youthful neighbor: "Virginia, I thought I heard you crying this morning." "N-e-v-e-r, n-o-t m-e! I'm too old to cry. I'm five years old; that was Dot." "And how old is Dot?" "Oh, she's most 18; she's old enough to be foolish."

Bungalow Stools.
Jolly little bungalow stools are constructed on the plan of the old-fashioned rush bottomed chair, with the four legs reaching up a trifle above the seat. Instead of a rush bottom, however, strong braided cord is used in an interlacing manner, and as the stools come in all colors, with cord bottoms to match, they may be selected to fit any chosen color scheme in a summer home.

The installation of a modern lavatory in your bath room or bed room means more than securing a simple necessity. It brings luxurious comfort and real convenience, promotes health and assures sanitary safety.

Just a Few Hundred Thousand. The men who mechanically handle large sums of money seem to lose the sense of relative value. A customer asked the paying teller of a New York downtown branch bank, "How much money do you usually have on hand when the bank opens?" "Not very much," was the answer. "Not over \$300,000 or \$400,000. We keep the most of it in the main bank uptown."

One Definition of a Lie. A boy at Sunday school described a lie as "An abomination in the sight of the Lord and a present help in trouble."
