ON CHARGE OF LARCENY

Ike Dolihan and John Clifton Caught—Each Had a Sack of Stolen Shells.

Captain Kruse, and Secretary Hughes of the police force arrested Ike Dolihan and John Clifton last night for stealing mussel shells. When they caught the two men they had 2 sacks of shells with them and both of them were taken to the police department with the goods and later the patrol wagon was called and the two old offenders taken to the jail where they were given comfortable berths for the night.

The shells belonged to a pearl man by the name of Figg and he stated last night that he had lost several tons of shells in the past few weeks. It is thought that charges will be brought against them for stealing a number of tons and if they are proved guilty they will probably be sent to the penitentiary. Both of these men have been before the courts for similar offenses, but for some reason or another they have always been able to evade being sentenced if any of the things which are said about them are true it is hoped that they will be given a fair trial and proved guilty and given a heavy sentence.

DeBruin, of Indianapolis, who have been here since Sunday, looking over the ground, and directing the work of a surveying corps, who commenced work at the Union Station and are now surveying a line to the south in the direction of Evansville, were joined here Wednesday by W. H. Townsend, of Cincinnati, and J. M. Fawset, of Yellow Springs, Ohio, and after a conference, all left in an automobile for Evansville. While here the gentlemen enquired as to the ownership of the vacant lots just east of the Union Station, but they dropped no information as to their intentions here, or as to the road which they are representing. The surveying corps was left at this point, and the men are pushing their work of surveying a line in the direction of Evansville. As stated in our last issue, it is said a similar surveying corps is at work pushing a line north from Evansville, to connect with the line being surveyed by the corps that are working from this city.

DOGS ARE TROUBLESOME

People on Third street between Busserson and Buntin streets and on Broadway near Third say that the dogs in that neighborhood have been bothering them a great deal all summer and they are getting worse and more numerous all the time. Some of them say that they intend to kill all that come in sight if the owners do not keep them up at night. They say that they tear up the lawns and flower beds, get upon the porches and on the sidewalks and keep them awake. We would advise the owners to keep their dogs off the street, for some of the people who have said these things are people who act after they see that nothing else will have its effect.
