LABOR DAY IS CELEBRATED IN GAY FASHION

Oakland City-zens Join In The Huge Celebration At Princeton

BLACKFOOT WINS PRIZE

Annual Labor Parade Is Three And One-Half Miles In Length

Hundreds of Oakland City-zens joined the thousands at Princeton yesterday to help observe and celebrate the annual Labor Day anniversary. The crowd was estimated at from 25,000 to 30,000 people and was by far the largest event of its kind ever held in southern Indiana. The Gibson county fair grounds were packed with automobiles and people from early in the morning to late last night.

The celebration got under way at 10 o'clock with a gigantic parade. It took 35 minutes for the parade to pass the judges' stand and was three and one-half miles long. Included in the line of march were five bands, dozens of beautiful and appealing floats and exhibits of all kinds.

The Blackfoot Coal Company float or exhibit won first prize. It was a small coal stripping machine in action with the tippie following on another truck. The shakers and screens in the tippie were actually working. Kings mine won the attendance prize. The men of nearly every local wore uniform dress and they made a beautiful scene as they swung down the race track in front of the reviewing stand.

Oakland City union harbers, the Oakland City Girl Scouts, Warner Bulley's dairy wagon and others from Oakland City were in the parade. Practically every town in community in Gibson, Pike, Warrick, Knox and Daviess counties was represented by a float or exhibit.

Mayor O. T. Braselton delivered the address of welcome immediately following the parade and a number by the WHAS, Louisville, Jug band. He stated that he had expected a small crowd this year because of the hard times but that he was pleased to say that it was the largest of its kind ever held in this section of the state. He assured all visitors that they were welcome to Princeton.

The program for the remainder of the day was as follows: address by Farmer Brown, of Arizona; colored roundhouse quartette, of Atlanta, Ga.; one hour concert by Princeton American Legion band; address by Mayor John McCarthy, of Washington; Jug band and dancers; two free acts; address by Boyd Gurley, editor of Indianapolis Times; roundhouse quartette; tug of war; two free acts; roundhouse quartette; balloon ascension and parachute leap; six continuous free acts; roundhouse quartette; boxing show, 26 rounds. Russell McKinney, an Oakland City boy, won one of the boxing exhibitions.

Most of the concessions which served the Gibson county fair week before last were held over and served the huge crowd.

A religious service was held in the fair grounds Sunday afternoon. There was an address by a Princeton minister and the Washington Graham Farm Band delivered an hour's sacred concert. Approximately 2,500 persons were in the grand stand to hear the program.

Oakland City business houses were closed all day to observe the annual Labor Day holiday.

FOUR INJURED WHEN AUTOMOBILES COLLIDE

Four persons, two from this city, were injured and one car was badly damaged in an automobile collision early Sunday night about three miles east of this city. J. Parker had been to this city and was returning to his home on state highway No. 64, east of the city.

John F. Gudgel Finds An Old Silver Dime

It is interesting at any time and under any circumstance to find money, but when it is money eighty-five years old that has probably been lost for over seventy-five years there is added interest and pleasure. That is what happened to John F. Gudgel, a few days ago.

John was cutting some corn on his farm south of town when he found a coin lying on the surface of the ground. It was badly corroded, but when cleaned it proved to be a silver dime coined in 1846. This caused Mr. Gudgel to reflect and review family history.

Mr. Gudgel's father located on that same land in 1856, and first occupied a shanty left there by the railroad grading crew. He lived in the shanty for some time and then built a long house nearby. The dime was found on the location of the old shanty, but the finder has no way of knowing whether it was dropped there by his father or other members of the family, or by one of the railroad workers.

In any event it is a valuable old coin and could probably recount an interesting history if it could speak.

HOOSIER POOR RELIEF SOARS

Spent \$2,506,456.13 For Outdoor Poor Relief During The Year Of 1930

Indianapolis, Sept. 7. — Indiana spent \$2,506,456.13 for outdoor poor relief in 1930, aiding 61,053 families represented by 226,039 persons, a report of the board of state charities made public showed. The figures were far in excess of any previous year.

Aid also was given to 10,849 individuals without families, making a total of 61,907 relief cases, represented by 235,883 persons. The figures were compiled from reports made by township trustees who are ex-officio overseers of the poor.

Compared with 1929, there was an increase of \$1,060,698.16 in aid, and 98,126 in the number of persons aided. The amount of aid increased 73.4 per cent and the number of persons aided, 72 per cent.

All but 41 of the 1,916 townships on the state gave poor relief during the year. The amounts ranged from \$100 each in 146 townships to \$20,000 and upwards in 17 townships. Pointing out that there is a difference in administration and in local conditions, the report said it is impossible to compare townships.

A striking example is found in Vigo county, where Harrison township, with a population of 70,922, gave \$59,472.80 relief, the report said, "while Sugar Creek township, in the same county, with less than one-tenth the population, gave \$54,167.67, more than half as much as the township nine times its size. The explanation lies partly in the fact that Sugar Creek township contains the town of West Terre Haute, which is practically a part of the city of Terre Haute and that part in which the less fortunate live."

Among the townships that gave more than \$20,000 in relief were: Center township, Marion county, Indianapolis, \$243,343.25, aiding 27,267 families; North township, Lake county (Hammond, East Chicago and Whitings), \$253,023.85, aiding 16,935 families; Calumet, Lake county (Gary), \$229,817, aiding 6,979 families; Portage, St. Joseph county (South Bend), \$80,709.08, aiding 10,120 families; Wayne, Allen county (Ft. Wayne), \$46,520.59, aiding 5,113 families; Pigeon, Vanderburgh county (Evansville), \$104,041.61, aiding 14,593 families; Harrison, Vigo county (Terre Haute), \$19,472.80, aiding 6,873 families; Center, Delaware county (Muncie), \$73,004.2, aiding 6,184 families; Anderson, Madison county (Anderson), \$73,004.22, aiding 6,184 families.

Two base hits—Fox, Klausus, Wessel, Burrage and Hummel. Stolen bases—Fox 2, Clutter, Anderson. Sacrifices—Reynolds, Gudgel. Struck out—By Willis 2, Klausus 5. Hit by pitcher—By Willis (Fox) 2. Winning pitcher—Klausus. Losing pitcher—Willis. Time of game 2:00.

GOVERNOR LESLIE NAMES TWO MEMBERS TO MINING BOARD

Indianapolis, Sept. 7.—Governor Harry C. Leslie has announced the appointment of two new members of the state board of mines and mining.

John H. Suttle, of Linton, was named to replace William Mitch, of Terre Haute, as a representative of the miners, and John LeClave, of Seelyville, was appointed to take the place of John A. Templeton, of Terre Haute, as representative of the operators. Both terms are for four years effective yesterday.

With approval of Governor Leslie, Albert C. Dally, chief mine inspector, announced the appointment of

SCOUTS TO STAGE BOXING MATCH HERE

The Oakland City and Jasper Boy Scouts will stage a boxing match in the college gymnasium next Friday night, Sept. 11. The match was arranged last Saturday when it was determined that the gymnasium could be secured. All money cleared from gate receipts will go to the Scouts.

The Jasper scout master wrote the local troop asking for the match. He stated that his boys range in weight from 80 to 135 pounds and that the oldest was nineteen. It will be recalled that Jasper and Oakland City Boy Scouts split in a boxing match at Washington several months ago.

DOTTED LINE ROADS TAKEN BY STATE IS START OF PROGRAM

Indianapolis, Ind., Sept. 7.—Eighty-four miles of roads, part of what is known as the "dotted line" system but receiving no maintenance, have been incorporated into the regular state system, it was announced today by the state highway commission.

Sections marked for active maintenance, according to officials, are extensions of Roads 5, 13 and 19.

Road 5 additions will consist of three sections in the Wabash and Warsaw maintenance districts. Road 13, consisting of two sections, extends from Peru to the Miami-Fulton county line and approximately 24 miles is added.

Addition to Road 5 starts at Huntington and proceeds in a northwesterly direction through South Whitley to the intersection with Road 30. The approximate mileage added is 20 miles.

State Road 13 addition starts at North Manchester and proceeds across Wabash and Kosciusko counties to the town of Benton located on State Road 2 in Elkhart county. This addition is approximately 42 miles.

According to John J. Brown, director, these additions bring state roads to a total mileage of 6,201 miles under all-year maintenance. Also, he points out, the additional maintenance means the purchase of more gravel and stone to apply to these roads which will help in the labor situation.
