### PLAYERS SUNDAY

Thomas Riggs, of the Princeton Country Club, in a telephone conversation with R. Walter Geise, president of the Oakland City Country Club, Wednesday morning requested that the Princeton club be allowed to bring 25 golfers to this city to compete with local golfers Sunday afternoon. Instead of 16, the number to compete in the tournament.

Mr. Geise took the matter up with the officers and board of directors of the local club and the Princeton organization was invited to bring 25 players to this city for Sunday afternoon. Sixteen members from each club will compete in the golf tournament but the remaining nine Princeton players will be paired with Oakland City players who do not qualify for the tourney proper. The first four some will start at 1:30 o'clock Sunday afternoon.

Oakland City golfers are turning in their scores for any six rounds this week and each score will be averaged at a meeting of the official board to night. The names of the sixteen members qualifying, that is the sixteen who have the lowest average for the six rounds, will be posted in Osborne's Drug Store window Saturday morning. Each player who wishes to compete for one of the sixteen places should be sure to turn in his scores at the club house at the links Friday afternoon. Alva Stephens will collect the scores at the club house and will turn the cards over to the committee.

Several members of the Princeton club have been playing on the local links this week and they have all praised the course highly. It is smaller than Princeton's course but is more sporty and perhaps harder to shoot, at least in some respects.

### FALL CUTS LIP

Walker Leslie, seven-months-old son of Dr. and Mrs. Walker France, of Princeton, fell from the front porch of the family home Wednesday morning and suffered a gash across his upper lip. He attempted to follow his father and mounted a stroller, which fell down the steps with the baby on it. Dr. France is a former Oakland City-zen and is at present a state highway policeman.

### DR. DEARING TO TELL OF SECURITY PEN TO 20th CENTURY CLUB

Among the many interesting developments in connection with the experiment in student self help at Oakland City College through the pen factory, there has just come to President W. P. Dearing a unique opportunity for publicity for this whole enterprise.

Through the interest shown in this undertaking by President W. L. Bryan, of Indiana University, an invitation has come to President Dearing to tell this whole story and explain the plan before the Twentieth Century Club of Boston, Mass.

This is one of the old clubs of that city, composed of its intellectuals and healthy business men. To get a hearing before it, is a privilege granted to but few people, and there is no way of measuring the value of this publicity to this Oakland City enterprise.

President Bryan has further shown his interest by ordering the Security pen placed on sale in the University book store at Bloomington.
