CABINET MEMBER QUILTS

ARTHUR HENDERSON BRITISH LABOR PARTY REPRESENTATIVE QUILTS POST

Activity in Interest of Socialist Peace Conference At Stockholm Brought Him Into Disfavor—Denies Acting in Official Capacity

(Bulletin).
 WASHINGTON, D. C., Aug. 11.—Secretary of State Lansing today announced that no passports will be issued to Americans desiring to attend the Stockholm socialist conference. The state department looks with disfavor on the conference for fear it will spread peace germs.

LONDON, Aug. 11.—Arthur Henderson without portfolio and former member of the war cabinet has resigned. It was officially announced today. Henderson is the labor member of the military who has been active in advocating participation of British labor in the Stockholm socialist conference.

Henderson's resignation was immediately accepted. Henderson has been under fire since he went to Paris recently to confer with French socialists as to participation in the international socialist conference scheduled in Stockholm next month. He defended his action by stating he had met with the French socialist as the leader of the labor party in England not as a cabinet minister or official of the British government. His presence however was regarded as giving the impression that British socialism was taking part in the discussion and brought a great uproar.

Henderson's position as a member of the war council, the inner council of the cabinet, made his active connection with the Stockholm conference especially objectionable.

He delivered an address at yesterday's labor conference which voted for representation at the Stockholm conference.

Men Demand \$1.00 a Day Extra — Governors of Central States Meet To Discuss "Outrageous Coal Price" Situation

CHICAGO, Ill., Aug. 11. —Twenty one Illinois coal mines was closed down yesterday as a result of a strike of 9,000 miners, according to announcements by representatives of the Illinois coal operators. The mines effected have a combined output of \$1,000,000 tons a day. The officials said the men were striking for one dollar a day increase because of the unfounded publicity given enormous profits alleged to be taken by operators.

Several hundred of the miners are already out, according to the official and others are expected to go out at once. The mines said to be effected are on the Northwestern, the Chicago and Alton and the Missouri Pacific. The reported strike was followed by announcement that the governors of Michigan, Wisconsin, Indiana and Illinois would meet in Chicago either today or tomorrow to discuss the reduction in coal prices.

The operators say a voluntary slash in prices is contemplated.
