## BIG CELEBRATION IN LABOR'S HONOR

**Labor Day Comes With Everything in Perfect Readiness For the Day's Program**

**A Parade This Afternoon, With Speaking at Fair Ground, and Grand Ball Tonight**

This is Labor Day and the national holiday is being celebrated in Princeton in a fitting manner. The committees in charge have made great preparations and nothing but inclement weather can in any manner alay the excellence of the celebration.

All the trains brought in many people who came to take part in the exercises and assist the Princeton people in making a success of the day. This afternoon there will be a parade, participated in by the labor unions and many other organizations. The parade promises to be a great feature of the day. After the parade, which disbands at the fair ground, Hon. J. W. Brady and Hon. Thos. Duncan will speak. The Princeton band will furnish music. The festivities will close with a grand ball, at the Odd-Fellows' temple, tonight.

The CLARION NEWS goes to press at noon, in order to permit its employes to take part in the parade, hence an account of the celebration will not appear until Tuesday.

### A Cure for Cholera Infantum.

"Last May," says Mr. Curtis Baker, of Bookwalter, Ohio, "an infant child of our neighbor's was suffering from cholera infantum. The doctor had given up all hope of recovery. I took a bottle of Chamberlain's Colic, Cholera and Diarrhoea Remedy to the house, giving them. I felt it cure it would do good if used according to directions. In two days' time the child had fully recovered, and is now (nearly a year since) a vigorous, healthy girl. I have recommended

## THE BANNER WEEK OF ALL THE YEAR

**Fair Week Here With Prospects For the Biggest Six Days in Fair's History**

**More People, More Exhibits, and Greater Attractions Than Ever Offered Before**

Today is the opening of the Gibson county fair and Elks' vaudeville which will continue during the week. There is every promise of it being the biggest week of the series of fairs ever held in Princeton.

The climatic conditions are not altogether favorable today for the opening, but if the rain is only moderate it will be a blessing rather than a hindrance. The clouds this morning floated low and a mist of rain fell at intervals, but not withstanding this a fair crowd was in the city at an early hour. The early trains brought large delegations from neighboring points to attend the labor demonstration.

A trip to the fair grounds will reveal the fact that a city has sprung up in the enclosure within a day. The shows and numerous attraction and stands began to arrive Saturday night and by Sunday afternoon white tents could be seen in all parts of the grounds. Hundreds of people visited the grounds Sunday afternoon to see what was going on.

Today the activity is increasing, despite the threatening weather, and it seems that everybody wants to be first in getting ready. There are a number of exhibits in today and race horses and live stock are plentiful. Secretary Hopkins and his assistants have been kept busy making entries, and the prospects are that all the departments will be filled to overflowing.

The fair program opens Tuesday morning and the indications are for a big Tuesday. In the afternoon there will be a race program together with
