Wonders of Nature
 The reason the Siamese twins are

LABOR DAY

On labor depends the progress and prosperity of a nation. All science and invention, commerce and industry look to it for stability, strength, and sound finance. In war and peace the hand of labor with its power to construct and destroy, alone has the means to make the world a better place in which to live.

A nation's gratitude sets a holiday, the laboring man's day, to honor the brawn and sinew and skill that has been responsible for the progress of the world through the ages.

The BANK'S Message To LABOR

The Peoples American National Bank

THE BANK OF SERVICE

It is Labor that creates the wealth which passes through the hands of the Bank. It is Labor's loyalty to the nation that gives the Bank its stability. When the Bank flourishes, Labor flourishes.

We Greet Workers!

This interdependence of the Bank and Labor has created between them a lasting sympathy; a friendship that is more than commercial, that is truly and deeply human. Oh Labor Day we greet all Workers and wish them unbounded contentment.
