# THE BIG PAY HAS ARRIVED

**\$35,000 IN BACK PAY COMES TO THE SHOP MEN.**

Covers the Increase From March 1 to August 1—Regular Pay Will Now be About \$50,000 a Month, as a Result of the Advances That Were Granted.

Those of the Southern shop men affected by the increases of wages granted several weeks ago were happy today over the arrival and distribution of the anxiously awaited checks covering the back pay on the increase. The checks cover this increase from March 1 to August 1, and they range from \$75 to \$115 for most of the men. About 550 are affected altogether, including the organized mechanics, who received an advance of 8 1-2 cents an hour; their helpers, who received an increase of 6 1-2 cents an hour and the apprentices, whose advance is 3 1-2 cents an hour.

A total of about \$35,000 was put into the city today, and it comes as a valuable nest egg to the men, in addition to their current wages. The regular pay days come on or about the 10th and 25th of each month.

Because of this special pay day, the banks will remain open until 7 o'clock this evening. The banks will be closed Monday on account of Labor Day.

The regular monthly pay for the Southern here has been running from \$40,000 to about \$45,000 a month, so that something like \$80,000 will have been put into Princeton by the Southern within this month.

Hereafter, under the new increase, about \$50,000 a month, or \$25,000 each pay day will be paid to the men here.
