Princeton's Leading News and Advertising
Medium Since 1846

Senator Arthur R. Robinson will speak in Princeton the night of September 19. The senator is a fine orator and he is always greeted with large audiences. No doubt Gibson county voters will attend his meeting here in great numbers

Great plans have been made for the Labor Day celebration here Monday. The committees in charge have left nothing undone that will contribute to the big event. This no doubt will be the biggest celebration of its kind ever held in Princeton.

To be in line Princeton must have an airport. This matter is now being investigated by city officials and Community club directors. An air mail line will soon be passing over Princeton from Chicago south. An emergency landing field here is very desirable. Eventually an east and western line may make Princeton a regular stop. A suitable landing field would be an inducement to bring this about.

Next week is the big week. The Gibson county fair is an institution and its annual advent always promises, and delivers, something different from the other fifty-one weeks of the year. There will be thousands of visitors here and the beautiful fairgrounds will be the scene of many reunions. It is Princeton and Gibson county's annual home coming, and no former resident remains away if it is possible to come.

REAL WORLD PEACE

The Republican administration, through President Coolidge and Secretary Kellogg, has rendered a service to the cause of peace that promises to be the most effective remedy yet devised to overcome war.

There are three main articles in the simple

dispute. The response to public sense of the world. It will go into successful gesture not on force, humanity and the going it.
