## THE NOMINATION

### IS WILLING TO ACCEPT MEXICO AS AN ISSUE

### Flays Republican Policies and Criticisms of His Administration and Especially Those "Who Would Have Recognized the Unspeakable Huerta"—Notification at Shadow Lawn

(By United Press)

LONG BRANCH, N. J., Sept. 2.—President Wilson this afternoon at Shadow Lawn, the Summer White House, formally accepted the Democratic nomination for the presidency and in outlining the achievements of the Democratic party scored the Republicans as "a party of masterly inactivity standing pat to resist change." "The Democratic party," said the president, "believes the energy and initiative of our people should be set free, as we have set them free, and not concentrated in the hands of a few powerful guardians, as our opponents have again and again sought to concentrate them."

The president said the people "would not reject those who have actually served them for those who are making doubtful and conjectural promises."

The president said his foreign policy was built on two fundamental principles—that property rights can be vindicated by commercial adjustment, but that loss of life is irreparable.

"I neither seek the favor nor fear the displeasure of that small alien element among us which puts loyalty to any foreign power above loyalty to the United States," he said.

### Mexico As An Issue

The president flayed those who would recognize "the unspeakable Huerta" and advanced his Mexican policy as "an issue upon which he would stand in the face of any criticism, while admitting the possibilities of mistake in this perplexing business."

He said the Democrats had created commercial credit for the farmer, emancipated the workingman, released

The president nayed those who would recognize "the unspeakable Huerta" and advanced his Mexican policy as "an issue upon which he would stand in the face of any criticism, while admitting the possibilities of mistake in this perplexing business."

He said the Democrats had created commercial credit for the farmer, emancipated the workingman, released children of the country from hurtful labor, and had put through national defense legislation greater than any ever before seriously proposed upon the responsibility of an entire political party.

In formally notifying the president, Sen. Ollie James assured him that "a record of peace, prosperity and happiness, while the old world staggers beneath a load of sorrow, would insure his re-election."
