The business session of the association held two Brood Sow demonstration some time in the afternoon. John Schwab, of Purdue, will spend to conduct the demonstrations. An effort will be made on the part of the association to make the pig club year bigger than ever.
The association favors conducting all cultural teaching in the public schools this winter. In such a manner it terminates in some form of boys girls club work during the summer months.

No. 7. Worden Brothers, these two men are known as the upside down jugglers. These men put on an entirely new and original idea in foot juggling, combining remarkable speed and accuracy. They also put on some very comic stunts. It is to receive attention that is sure to please.
No. 8. Each afternoon Professor Charles Skiver will put on his wonderful balloon ascension. Prof Skiver will make three separate and distinct parachute drops during the drop. He is generally recognized as the very best in his line in the country. It has been two years since there was a balloon ascension on the grounds and so many of the patrons were asking why there was no ascension last year that the association decided to give a real balloon ascension this year.
You can easily see that the Gibson County Fair Association is preparing, along with other things to see and visit at the fair, some real free attractions. Come and see them and we hope that they will please you.
