 103-MARK FRIDAY**

The extreme heat wave which still  
 had Princeton in its grasp today  
 reached 103 Friday. Dr. A. R. Burton  
 reported today. The mark was only  
 one degree short of the record set  
 Thursday when the mercury went to  
 104, breaking all records for Septem-  
 ber since the local bureau was estab-  
 lished 32 years ago. The highest tem-  
 perature recorded here during that

**SCHOOLS AND  
 LIBRARY**

(By City Librarian)  
 The Child Welfare association and  
 the National Safety council have this  
 year issued as a part of their campaign  
 of education, a series of clever bulle-  
 tin setting forth a few of the mis-  
 adventures of the "Simple" family.  
 They are of particular interest here  
 because they are the work of Miss  
 Clattie Emery.  
 Each picture is accompanied by an  
 explanatory rhyme. For instance:

"Mamie Simple found a gun.  
 He thought it wasn't loaded.  
 But when he pulled the trigger back  
 The horrid thing exploded.  
 The Simplex always 'take a chance,  
 And wake up in the ambulance!"

A set of the eight posters is now on  
 display at the public library and they  
 will be loaned to any of our teachers  
 who wish to stamp these rules on the  
 minds of her pupils this winter. The  
 library has also a teacher's manual,  
 "An Introduction to Safety Education,"  
 prepared by the National Safety coun-  
 cil and a "Tentative Course in Safety  
 Education, Grades 1-6," prepared by  
 the teachers of Springfield, Mass.

Every year according to the statis-  
 tics of the safety council, 20,000 chil-  
 dren under fifteen are killed in the  
 United States and many times that  
 number are hurt—crippled perhaps for  
 life.

Some of the children's books which  
 have just come in will be of especial  
 interest to teachers. The "Little Chil-  
 dren's Bible" which is edited by Miss  
 Salmer, "Manners for Boys and Girls,"  
 is a delightfully written book by Flor-  
 ence Howe Hall; "Manners and Con-  
 duct in School and Out," by Chicago  
 teachers, is compact and forceful.

Frazier's interesting "Young Citizen's  
 Own Book," Krapp's "America, the  
 Great Adventure," a history from the  
 discovery of the present time, Lida's  
 "Drawing Made Easy," "Tommy  
 Tucker on the Plantation," all sugges-  
 sive by their titles. A charming volume  
 of little folk's plays is Rose Fyfe's  
 "Eight Little Plays for Children."

High school and grammar school  
 teachers will be delighted with the  
 practicality of Auldwyn's and Weirick's  
 "Acting and Play Production," Grim-  
 ball and Wells' "Costuming a Play,"  
 and Katharine Reedy's "Three One-Act  
 Plays," and perhaps with "Sarah  
 Shirner's Selections," although these  
 may be more difficult. In addition  
 there is Burton Stevenson's compre-  
 hensive "Home Book of Modern Verse."  
 "The right of the people to be secure  
 in their persons, houses, papers and  
 effects, against unreasonable searches  
 and seizures, shall not be violated, and  
 no warrants shall issue but upon proba-  
 ble cause, supported by oath or affir-  
 mation, and particularly describing the  
 place to be searched and the persons  
 or things to be seized."

Apparently a lot of over-zealous  
 searchers have never heard of this  
 amendment. Often homes are searched  
 without a warrant. There have been  
 thousands of cases of warrants based  
 on mere hearsay or suspicion, and not  
 supported by "oath or affirmation."  
 One constitutional amendment can-  
 not be invoked to cancel another. The  
 two have to harmonize.  
 Much conduct has done as much to  
 discredit prohibition as all the efforts  
 of enemies of this reform. For the sake  
 of the reform itself, the enforcers must  
 reform.

**CHICAGO GRAIN**  
 (By the Associated Press)  
**CHICAGO**, Sept. 5.—General specu-  
 lative selling carried the wheat market  
 off early today to the lowest prices yet  
 on the present downturn. Liberal re-  
 ceipts both at Winnipeg and at Minne-  
 sapolis and Duluth, tended to make  
 traders aggressive in the selling side.  
 Furthermore corn weakness so rates  
 in Iowa and in the northwest counted  
 as a bearish factor in all the pits.
