 FOR 1916 FAIR**

OPERATORS WILLIN'

(By United Press)

TERRE HAUTE, Ind., Aug. 29.—Indiana operators have no objection to meeting officials of the United Mine Workers to discuss wages, officials of the Coal Operators Association here said today. Operators anticipate no great trouble in reaching some sort of a wage agreement.

INDIANAPOLIS, Aug. 29.—A substantial increase in the coal mining scale will be asked by the United Mine Workers of America, an invitation to the coal operators of the central competitive field having been extended late yesterday to meet the miners' officials on Sept. 6 to discuss an increase, according to a statement issued by William Green, international secretary-treasurer of the miners. Mr. Green said this decision had been reached at a conference of the miners and presidents of the districts of Illinois, Ohio, western Pennsylvania and Indiana, composing the central competitive field.

While the conference Sept. 6, is for operators of the central competitive field only, according to the statement of Mr. Green and the letter to the mine workers, it is the intention to ask an increase for all its members in the United States.

Operators to Meet Sept. 5

TERRE HAUTE, Ind., Aug. 29.—Phil H. Penna, secretary of the bituminous operators' association, said that the operators would meet Sept. 5, when the suggestion of the United Mine Workers for steps to bring about increases in wages would be considered. He said none of the operators were ready to discuss the matter.

 The pres-
 and very
 an the

The president believes that if the German people can only learn the truth the war will be at an end. That is why he emphasizes in his note to the pope that the kaiser stands between the German people and peace; that is why he does not favor any allied plans for economic war against Germany at the close of the war, as planned in the Paris conference.

An Allied Blunder

Diplomats—particularly the Russian—pointed out that the president's answer is virtually Russia's program—no forcible annexation; no punitive indemnity; no economic war after the war. This thought is destined to hearten Russia, to gain support of Russian democracy parties throughout the war and to correspond to some pacifist programs.

Some of the optimists believe Germany will begin to see the light by winter, and that Wilson's plea will then be heeded. Others say it may take a year or two—that is, until America's full strength is felt—before the Germans sense the program they must follow to get peace. The pope, it is believed, is done with peace efforts for some time.

WASHINGTON, Aug. 29.—President Wilson's rejection of the pope's peace proposals is regarded here as the high water mark of the war. Furthermore, it is indicative of the virtual selection of the president by the allies as their spokesman before the world.

Information That Should Be Read by All Expecting to Attend—Children's Day, Old Soldiers Day and Provision for Pioneers—Entrances for Vehicles.

Only a few more days and the Gibson county fair will be on. Next week is the time.

Contrary to reports, there is no advance in the admission for the "Great and Only" this season, and you may assure your friends that the schedule given below is exactly the same as in 1916.

On Monday, which is given over to making entries and arranging the exhibits, the gates are free to everybody, and after that a ticket is required for all who pass the gates or remain on the inside. No money will be accepted by the gate keepers; tickets must be purchased at the different box offices. Tuesday has been designated as Children's Day and all children under fifteen will be admitted free. A program especially interesting to the young folks is being arranged by a special committee appointed for that purpose, announcement of which will be made later.

A season ticket, which admits one adult each day during the week, will be sold for \$1.00. A saving of 75 cents can be made by those who expect to be present daily. Tickets for one general admission are 35 cents, and in connection with this the management desires to state that there is absolutely no charge at the different entrances to the amphitheater. Children under nine years of age are admitted free; over nine and under twelve they are required to pay 20 cents.

The following admissions apply to the entrance to the inside ring only:
 Single horse and rider, 60c.
 Single buggy and driver, 60c.
 Double carriage and driver, 85c.
 Two horse wagon and driver, 85c.
 Automobile and driver, 85c.
 Ticket admitting an auto during the fair, \$2.00.

Ticket admitting a double carriage during the fair, \$2.00.

All vehicles are admitted free at the coal mine and the Brown street gates, the only requirements being the necessary adult and children's tickets for
