

Grounds and Buildings Are Being Put in Order

Secretary Strain was kind enough, this morning, to take a CLARION representative to the fair ground for the purpose of noting the work being done there preparatory to the big fair next week.

The grounds are in excellent condition, the recent rains having brought out the grass and foliage until the scene presented is a reminder of the beautiful Lincoln park, in Chicago. Every piece of paper, pieces of wood and rubbish have been collected and burned, leaving only the natural beauty of the grounds to appeal to visitors.

The buildings have been thoroughly cleaned and are practically ready for the influx of exhibits which will mark the opening day of the fair. The track is being worked thoroughly and will be in condition for excellent racing.

There is already one stand in operation. "Boneless Fish King" Jim Sutton has his stand up and is doing a lively business with the members of the golf club.

The golf players are dedicating the grounds this week and the attendance of enthusiasts this morning was large. Mr. and Mrs. R. P. Moore announced they had been enjoying the sports since 6:50 o'clock. Others were on hand nearly as early. Sutton's fish sandwiches suffer, as a result of the violent exercise of this popular game.

VINCENNES UNIVERSITY

Fall Session Opens Sept. 10, With Full Curriculum

Vincennes University opens Sept. 10. Its fall curriculum includes Latin, five courses; Greek, two courses; German, three courses; French, two courses; English, seven courses; History, three courses; Natural

richly blessed us as a people. To me these have been very happy years. And I now come to you, and through you to the congregation, resigning the charge to which you called me, and request that you join with me in this step in presbytery.

With an abiding love toward every member of this congregation, and with assurance to you that you will be continually remembered in prayer before our Lord, I remain ever yours in Christ.
A. M. CAMPBELL.

Labor Day Celebration

The Princeton coal miners and the members of the Federation of Labor are making arrangements to attend "Labor Day" at Oakland City next Monday. The Princeton band will accompany them and will furnish plenty of good music. A special train will leave this city Monday morning via Southern for Oakland City and will return late in the afternoon. The train will be composed of three coaches and excursion rates have been secured. Princeton will certainly be well represented at the Labor day celebration.

The races this year will be the best ever held in Southern Indiana, 15 horses in some of the races and the track record will be 2:10 after Tuesday. Don't fail to see the big races on Tuesday; also Little Frank, the Lone Pacer, will go every day by himself.
21d&wtf.

Next week the Big Fair will be here. More entries up to date than ever before which makes us sure of having the best and largest fair ever held in the county.
